 Bhaktapur, Nepal

SUMMARY

Starting over to a journey as a Python Developer, I can bring best in field of problem solving skills and can work with Django Framework as well. I have done few projects in app development as well. I have also some knowledge about even mobile app development using flutter as well.

EDUCATION

Bachelor's in Computer Engineering

[Advanced College of Engineering & Management](#)

 2020 - 2025  Kalanki, Kathmandu, Nepal

+2 in Science

[Capital College and Research Center , CGPA - 3.58](#)

 2018 - 2020  Kathmandu, Nepal

PROJECTS

Analog Clock

[Python Graphics Project](#)

- Developed an analog clock using python and graphics.

Fruit and Vegetable Freshness Classification

[AI project](#)

- Using CNN, fruit and vegetable freshness such as rotten and not rotten were classified. It was an minor project of my bachelor's course. The available dataset were used for training model.

Mobile Application

[Flutter Project](#)

- Using Flutter, a simple app for stock prediction is being created and is not fully developed. It is a part of my bachelor's course major project.

Stock Prediction

[AI project](#)

- Also, I am doing Stock market prediction project using two algorithms that is transformer and Reinforcement learning. The two model would be trained and compared to find the best model for prediction of stock market.

Hackathon

[Django](#)

- I participated in a hackathon competition and made a project related to tourism sector. Hackathon was of 30 hours project and I used a django platform for creating the web application.

SKILLS

Communication

Excel

MySQL

PowerPoint

Django Framework

Flutter

HTML

CSS

AI/ML

Python Programming

C and C++

STRENGTHS

Fast Learner

Can learn new things fast as required.

Time Punctuality

Very punctual in matter of time for every work.

LANGUAGES

Nepali

Proficient

English

Advanced
